

# University of Cyprus-ICAEW Business Game

## Test your business skills in the ultimate team challenge!

If you think you've got a head for business then join us for this unique team challenge - you can put your skills to the test and develop your employability along the way.

As part of a team (of 5 or 6 members) you will act as business advisors to a fictitious client, evaluating a variety of business and investment opportunities. Working against the clock, your team will assess each opportunity from the information available, make some strategic decisions and present your advice to the client. You also get the chance to meet some top local employers for questions, advice and guidance.

Gifts for all and special prizes for the winning team!

Find out more from the Careers Office at 22894057/24.
