

## **Business Continuity Management Training**

Reinforce Your Business - get an understanding of Business Continuity Management based upon the world's first management standard for business continuity planning; BS25999 - from May 31st - June 2nd at Computrain.

### **How will BS25999 benefit my business?**

The world's first management standard for Business Continuity Management (BCM), this training presents the opportunity to gain a working knowledge on a step by step process to formalise your organisation's BCM arrangements.

BS 25999 is a comprehensive and rigorously tested Business Continuity Management planning standard which can be externally validated and which will help your organisation to:

1. Protect your vital assets
2. Mitigate risk
3. Manage crises
4. Recover rapidly from emergencies, major and minor
5. Build confidence among your customers, partners and stakeholders

This three day course (May 31st - June 2nd) is delivered by a experienced UK based consultant providing advice on how to achieve effective Business Continuity Planning for your organisation based upon BS25999 BCM best practice.

### **All the guidance you need from start to finish**

The course will provide a working knowledge of the standard and enable you to take an overview of how you measure up against the current requirements of a best practice BCM and identify the steps you need to take to create or complete a plan which is effective and pragmatic for your business.

### **Why a BS 25999 based Business Continuity?**

1. Link your BS25999 Information Security framework with your ISO27001, CobiT, ISO20000, ITIL, PCI DSS, and other management frameworks, as well as your other information regulatory compliance obligations
2. Tailor your BCM system to YOUR requirements to ensure it continues to be cost-effective to run
3. Take the stress out of creating a BCP with a clear-cut, pragmatic and proven approach and methodology
