

INVITATION

Seminar on “Provisioning/Protecting Multicast Applications in High-Speed Networks”

Tuesday 30th September 2014

Conference Room, KIOS Research Center, University of Cyprus

Project Acronym: MULTIBROAD - TPE/EPOIK/0311(BIE)/11

Supported by the Cyprus Research Promotion Foundation's Framework Program for Research, Technological Development and Innovation 2008/2009-2010 (DESMI 2008, DESMI 2009-2010), co-funded by the Republic of Cyprus and the European Regional Development Fund.

PROGRAM

15:00-15:15	Introduction Prof. Georgios Ellinas, University of Cyprus
15:15-15:40	Context-Aware Media Multicast Delivery Architecture Prof. Vasos Vasiliou, Department of Computer Science, University of Cyprus
15:45-16:10	Survivability of Multicast Requests in Mesh Optical Networks Dr. Costas K. Constantinou, KIOS Research Center, University of Cyprus
16:15-16:40	QoT Considerations for Multicast Connections in WDM Mesh Optical Networks Dr. Tania Panayiotou, KIOS Research Center, University of Cyprus
16:40 -17:05	Security Threats and Solutions in WDM Optical Networks Dr. Kostantinos Manousakis, KIOS Research Center, University of Cyprus
17:10 -17:30	Prospects for future research on Provisioning/Protection of Multicast Applications in High-Speed Networks Discussion
