Design & Build together!

When I started working as a young architect and began building my first project, the renovation of a derelict building, I soon realised that I was making all of my design decisions on the site, and not at my drawing desk. In the years that followed, when I began working with families and groups, I integrated them into the design and building process decisions as well. When I became a professor, I continued to design and build together; this time, with my students.

Professor **Christoph Schulten**. Dipl.-Ing. Architect, Technical University of Dresden, Germany, Faculty of Architecture, Department of Construction & Conservation.

1974 Diplom, RWTH Technical University of Aachen, Germany

1974 - 92 Architect & Assistant Professor, RWTH TU Aachen

1985 1. Prize: National Architectural Award "DEUBAU-Preis 85"

since 1985 several awards and honourable mentions for winning projects

since 1992 Professor of Building Construction & Conservation, TU Dresden
