

Title: “Spatial Practices in Art and Architecture for Empathetic Exchange-Space X”

Program duration: 01.2022 – 01.2026

Coordinating University: Northampton University: Professor Andrew Hewitt

Funding: Marie Curie ETN Horizon 2020

Budget: €650.000

Steering Committee: Andrew Hewitt, Melanie Jordan, Emma Mahony, Socrates Stratis

SPACE X responds to the troubling rise of populist nationalism and conflict in European societies by engaging new publics and forging a culture that embraces diversity, difference, and discursive exchange within cities, towns and urban sites..

Space X Rise started in January 2022, a four year long transdisciplinary research action that utilises secondments between academic institutions and third sector organisations in order to scope and map European spatial practices.
