

INTERNAL SQUASH CHAMPIONSHIPS

The Sports Center of the University of Cyprus announces the Internal Squash Championships for **the Spring Semester 2025**. The championships will be held at the Sports Center of the University of Cyprus.

All members of the University Community have the right to participate. Men's and Women's championships will be held, and different brackets will be created for each championship.

All the games will occur mid of March and April 2025, at the hours, that the Athletic Center, will announce.

To determine a winner, three (3) winning games up to 11 points are required, with the necessary condition of a difference of at least two (2) points (e.g., 11-9); otherwise, the set continues until one player achieves a two (2) point lead (e.g., 12-10 or 13-11, etc.). The matches will be held without a referee, except for the Semi-Finals and the Final, where a referee will be present. In case of disagreement, the point will be replayed. The rules of the game will always be followed as published on the official website of the World Squash Federation (worldsquash.org).

The results of the matches must be reported immediately to the league coordinator. In the event that the matches are not completed by the start date of the next round, the players of the specific match will automatically be disqualified and excluded from the

championship (an exception will be made if two participants come to an agreement and submit in writing to the championship coordinator or the Sports Center their decision for one of the two participants to advance to the next round).

The presentation of student and staff identities of the University of Cyprus before the competitions is mandatory. Athletes who do not present their university identity will not be able to compete.

The Sports Center expects everyone to compete honourably, within sportsmanship frameworks, and with the demonstration of superior sportsmanship spirit to contribute to the elevation of the University of Cyprus sports.

For registration, please follow the link below:
