

Areas	Faculty Members	Programme
Transmission and pathogenesis or emerging and re-emerging human infectious viruses	Prof. Leondios Kostrikis	Ph.D. in Molecular and Cellular Life Sciences
Molecular Cell Biology	Prof. Niovi Santama	Ph.D. in Molecular and Cellular Life Sciences
Molecular, Cell, and Developmental Biology	Prof. Paris Skourides	Ph.D. in Molecular and Cellular Life Sciences
Developmental Biology and Stem cells	Assoc. Prof. Pantelis Georgiades	Ph.D. in Molecular and Cellular Life Sciences
Function of epigenetic modifications in health and disease	Prof. Antonis Kirmizis	Ph.D. in Molecular and Cellular Life Sciences
Computational Biology and Bioinformatics with applications in Genomics/Proteomics, Molecular Cell Biology, Systems and Synthetic (Micro)biology	Assoc. Prof. Vasilis Promponas	Ph.D. in Molecular and Cellular Life Sciences
Host-Microbe-Diet interactions and carcinogenesis	Assoc. Prof. Yiorgos Apidianakis	Ph.D. in Molecular and Cellular Life Sciences
<i>Drosophila</i> Development, Homeostasis and Disease	Assoc. Prof. Chrysoula Pitsouli	Ph.D. in Molecular and Cellular Life Sciences
Host-Virus interactions, Oncogenic viruses	Assoc. Prof. Katerina Strati	Ph.D. in Molecular and Cellular Life Sciences
Molecular biology of endomembrane transport and trafficking	Assist. Prof. Elias Bassil	Ph.D. in Molecular and Cellular Life Sciences
