

University of Cyprus
IT Infrastructure Service

Connecting to the **ucywifi** wireless network

Operating System: **Windows 10**

NETWORKS SECTOR
April, 2017

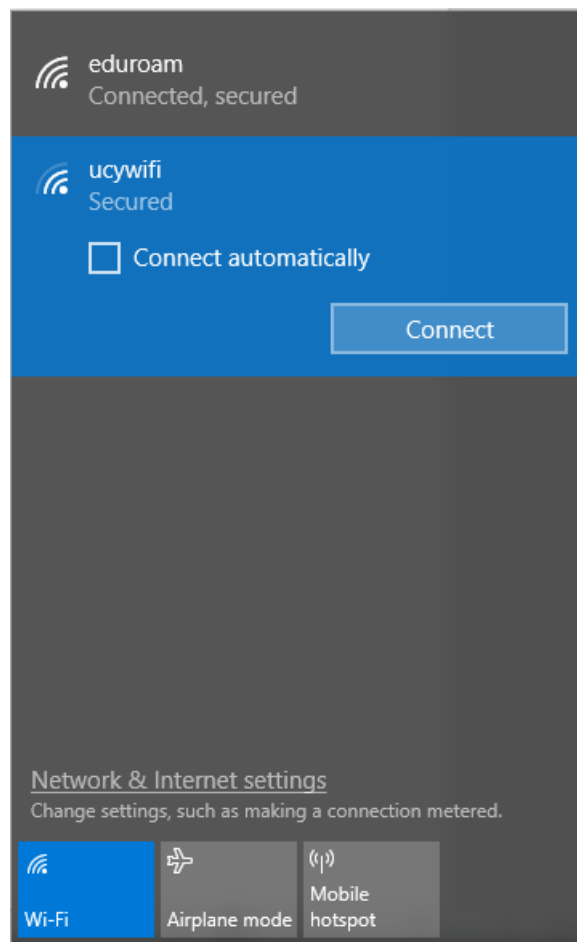

Step 1:

Click on the Network settings icon on the taskbar menu:

Step 2:

Select **ucywifi** from the available wireless networks list and click on **Connect**:

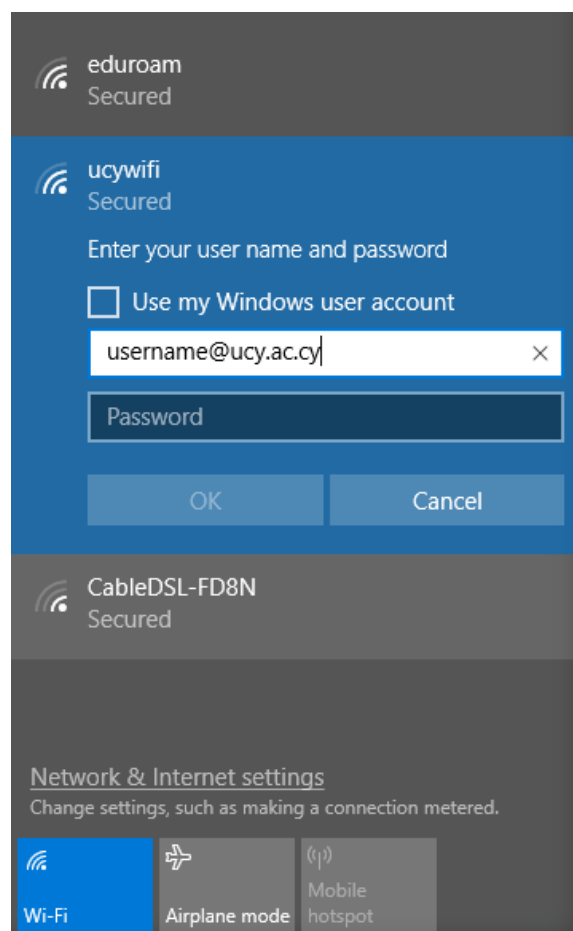

Step 3:

Enter your **username (with the suffix @ucy.ac.cy)** and **password** (username/password are those you use for accessing your University email account).

Once you fill in the required information, click **OK**.

IMPORTANT:

If your email address is of the following format: georghiou.george@ucy.ac.cy, and you have been given an alias email such as ggeorge@ucy.ac.cy for example, then you must use ggeorge@ucy.ac.cy as the username for accessing the service.

Step 4:

In case you receive the following message, click on **Connect** in order to allow the connection to be established:
