GENERAL INFORMATION

The University of Cyprus is accepting applications for the following postgraduate programmes for the academic year **2024-2025** with admission **on January 2025**.

Applications can be submitted **ONLY electronically** using the online application system of the University of Cyprus by **Thursday 31st October at 12 noon**. **Applications submitted on paper will not be accepted.**

The language of instruction for the above postgraduate programmes is Greek, except otherwise stated [here](#).

All the places offered by the Faculties/Departments of the University of Cyprus are presented in a table ([Appendix A](#)). For more information on postgraduate study programmes please visit the website of the [Graduate School](#).

For further information, please contact the Secretaries of the Departments on weekdays, **Monday - Friday from 8.00 a.m. - 2.00 p.m.**

REQUIRED SUPPORTING CERTIFICATES/DOCUMENTS

The online applications should include the following:

1. **Curriculum Vitae.**
2. **Recognised University Degrees** (Master's and Bachelor's level) or a **certificate of expected graduation** in the month preceding enrolment in the postgraduate programme. (In case of admission to a programme, certified copies of degrees must be submitted at the University no later than the acceptance date of the place).
3. **University Transcripts** as appropriate.
4. **A short statement** (max. two pages) of the student's research goals and interests.
5. **Letters of recommendation: The names and addresses of at least two (2) referees (University Professors)** familiar with the candidate and his/her academic performance. In your application, you will only need to include the names and e-mail addresses of the evaluators. Reference letters are submitted electronically directly by the University Professors using the online application system. Please note that the Department may request additional confidential information.
(Some departments require three (3) reference letters to be submitted with the application, so before submitting your application, please visit the web page of the department to verify the number of reference letters required).
6. **Certificate of English language proficiency** (if you are interested in studying in an English-speaking postgraduate programme or a programme requiring English language proficiency):
 - In accordance with the Cyprus Agency of Quality Assurance and Accreditation in Higher Education (CYQAA), for admission to postgraduate programmes taught in the English language, candidates should provide a certificate of their knowledge of English.
 - For postgraduate programmes candidates are required to have a certification for "Very Good Knowledge" of English at level B2-C1 of the Common European Framework of Reference for Languages (CEFR).
 - Common European Framework of Reference for Languages (CEFR) corresponds to the following specific reference frameworks for international examinations, according to the official pages of the organizations offering these examinations. Indicatively, a score of 5.5 – 6.5 corresponds to knowledge of level B2 (Lower), while score 8.5-9 is level C2 (Proficiency).
 - Due to some scores only remaining valid for two years, if you apply using a certificate gained over two years ago, you will need to retake the test.

- Interested candidates coming from third countries can also take the Password Test (Password Skills Test Plus), ensuring an overall score of at least 5.5, to be granted a permit to enter the Republic of Cyprus (Decision 91.387/2021 of the Council of Ministers of the Republic of Cyprus, which enters into force on 01.12.2022).
7. Other certificates and verifications that will help the evaluation committee to assess your application, such as employment verifications, etc.
 8. **FOR DOCTORAL APPLICATIONS:** A preliminary research proposal for a PhD place (if this is stated in the department's regulations).

Application Submission Confirmation

It is the applicant's responsibility to ensure that their application has been successfully submitted. Upon successful submission, the candidate will receive an automatic confirmation from the system that his/her application has been successfully submitted. For any additional information or clarification, please do not hesitate to contact the [Graduate School](#).

4. **Scholarships in memory of MICHALIS (MIKE) POLYDOROU* For Master/PhD Level Students – Department of Computer Science**:
Two tuition scholarships are awarded to new and existing postgraduate students, Master's or PhD, in any field of Computer Science. Application can be found [here](#). [Additional information.](#)

INTERNATIONAL STUDENTS - APPLICATION FOR A VISA

Entry permit visa of postgraduate students from non-EU countries

All students from non-EU countries require a visa to enter the Republic of Cyprus.

The [International Students and Staff Office](#) of the University of Cyprus provides guidance and support to all non-European students and staff regarding entry and residence permit procedures in the Republic of Cyprus.

Once the evaluation process of your application has been completed and the decision to offer you a place on a postgraduate programme has been made, you will be informed by the International Students and Staff Office about the documents required for the issuance of a visa.

Once all the required documents and payments have been received, the University of Cyprus, through the International Students and Staff Office, will submit the student's documents to the competent authority for examination of the visa application.

For the documents required for the issuance of visas, please consult the Office's website [here](#).

11. DEPARTMENT OF ENGLISH STUDIES

Fourteen (14) places for the postgraduate programmes leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: [7]

Total places PhD Programmes: [7]

MASTER PROGRAMME	
Title of the programme	English Studies (MA)
No. of places	Seven (7)
Description / Information	<p>This Master's programme is designed for students who wish to pursue advanced study and research in English Studies. Drawing from the fields of Literary and Cultural Studies, Translation Studies, and the study of the English Language, this interdisciplinary, inter-generic programme balances theoretical, cultural and practical concerns. It has the following main objectives:</p> <ul style="list-style-type: none"> • To provide graduate students with a holistic understanding of hermeneutic and pedagogical issues of interpretation and transmission. • To offer an in-depth focus on theoretically and historically informed perspectives on literature. • To develop a particular focus on the role of the interlingual and intercultural transfer of literary texts through translation and adaptation. • To provide a solid background in the philosophy and practice of language. <p>The Programme is divided into two components: The taught component covers the main areas of English Studies and familiarizes students with research methodology; the thesis component gives students the opportunity to undertake research in a specialised area of interest. The courses offered will be drawn from a list of broader rubrics that represent the philosophy and objectives of the Programme.</p>
Notes/exceptions (if applicable)	Scholarship funding available on a competitive basis.

PhD PROGRAMME	
Title of the programme	PhD in Digital Heritage and Landscape Archaeology
No. of places	Two (2)
Description / Information	<p>The Ph.D. programme <i>Digital Heritage and Landscape Archaeology</i> of the University of Cyprus is a unique postgraduate programme that offers a concrete interdisciplinary academic course platform dealing with the application of spatial technologies and Geoinformatics in the wider domain of Digital Humanities. The program will act as an interface between New Technologies and the Humanities, exposing students to the latest spatial technological developments, providing hands-on training to different instrumentation and software, promoting a critical perspective of their application in terms of addressing archaeological- and historical- oriented questions and opening a dialogue between different disciplines.</p> <p>The particular knowledge and skills will equip students to deal successfully with the existing challenging conditions of the competitive job market in the humanities and provide them with a solid base of knowledge to continue their research at an even more advanced level. Students will participate to international research projects of the Digital Humanities Geoinformatics Lab, they will get connected with a network of international researchers and academics, they shall obtain experience with geophysical instrumentation and advanced GIS spatial analysis methods and they will become part of the new generation of archaeologists who will be capable to deal with new technologies.</p> <p>Intended learning outcomes</p> <p>Through the specific graduate programme, students will be able to:</p> <ul style="list-style-type: none"> • Comprehend the relation between environment, climate, and anthropogenic activities of the past with an emphasis on the settlement patterns and the exploitation of environmental resources. • Obtain state-of-the-art skills that can be used in both field campaigns and laboratory analysis of surface survey and excavation results.

	<ul style="list-style-type: none"> • Understand how the different spatial analysis tools operate to address questions related to the habitation patterns and the intra- and inter-spatial distribution of finds. • Acquire the knowledge of the creation of maps (distribution of finds, geophysical measurements, geological and topographic maps, environmental maps, etc.) and comprehend the different spatial statistic algorithms to analyze them. • Familiarize themselves with the actual research questions and take a critical stand on the statistical and spatial statistical results. • Obtain a practical hands-on training of software (GIS, network analysis, statistical analysis, mapping, etc.) and instrumentation/hardware (geophysical instruments, drones, cameras, GPS, etc.) that will make them competitive in their future profession (academia, cultural resources management, practical archaeology, etc.) and boost their career opportunities. <p>The candidates for the PhD programme should be graduates of a Master's programme in Archaeology, History, Classics, Anthropology or other related fields of research (History of Art, Architecture, Geography, Geology, Topography, Environmental Sciences, Biology, Physics, Chemistry, Computer Science, Engineering) from recognized universities.</p> <p>Except the above supporting documents that candidates need to submit in the online application system of the University of Cyprus, they shall need to submit a preliminary research proposal (5-10 pages including references) that will explain the research topic of their PhD.</p> <p>Candidates who meet the necessary requirements will be called for an interview.</p> <p>A number of scholarships will be offered to the best full-time candidates admitted in the programme.</p>
