16.INTERDEPARTMENTAL PROGRAMME IN ENERGY TECHNOLOGIES AND SUSTAINABLE DESIGN – FACULTY OF ENGINEERING (DEPARTMENT OF ARCHITECTURE, DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING, DEPARTMENT OF MECHANICAL AND MANUFACTURING ENGINEERING AND DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING)	54
17.INTERDEPARTMENTAL PROGRAMME IN BYZANTINE STUDIES AND LATIN EAST – DEPARTMENT OF BYZANTINE AND MODERN GREEK STUDIES AND DEPARTMENT OF HISTORY AND ARCHAEOLOGY.....	55
18.JOINT DEGREE AND INTERDEPARTMENTAL PROGRAMME IN DESIGN FOR SOCIAL INNOVATION – DEPARTMENT OF ARCHITECTURE, DEPARTMENT OF BUSINESS AND PUBLIC ADMINISTRATION, AND DEPARTMENT OF MULTIMEDIA AND GRAPHIC ARTS OF CYPRUS UNIVERSITY OF TECHNOLOGY (CUT)	56

GENERAL INFORMATION

The University of Cyprus is accepting applications for the following postgraduate programmes for the **Spring Semester of the academic year 2025/2026 with admission on January 2026.**

Applications can be submitted **ONLY electronically** using the online application system of the University of Cyprus by **November 7th 2025 at 12 noon. Applications submitted on paper will not be accepted.**

The language of instruction for the above postgraduate programmes is Greek, except otherwise stated [here](#).

All the places offered by the Faculties/Departments of the University of Cyprus are presented in a table ([Appendix A](#)). For more information on postgraduate study programmes please visit the [website](#) of the Graduate School.

For further information, please contact the Secretaries of the Departments on weekdays, **Monday - Friday from 8.00 a.m. - 2.00 p.m.**

REQUIRED SUPPORTING CERTIFICATES/DOCUMENTS

The online applications should include the following:

1. **Curriculum Vitae.**
2. **Recognised University Degrees** (Master's and Bachelor's level) or a **certificate of expected graduation** in the month preceding enrolment in the postgraduate programme. (In case of admission to a programme, certified copies of degrees must be submitted at the University no later than the acceptance date of the place).
3. **University Transcripts** as appropriate.
4. **A short statement** (max. two pages) of the student's research goals and interests.
5. **Letters of recommendation: The names and addresses of at least two (2) referees (University Professors)** familiar with the candidate and his/her academic performance. In your application, you will only need to include the names and e-mail addresses of the evaluators. Reference letters are submitted electronically directly by the University Professors using the online application system. Please note that the Department may request additional confidential information.
(Some departments require three (3) reference letters to be submitted with the application, so before submitting your application, please visit the web page of the department to verify the number of reference letters required).
6. **Certificate of English language proficiency** (if you are interested in studying in an English-speaking postgraduate programme or a programme requiring English language proficiency):
 - In accordance with the Cyprus Agency of Quality Assurance and Accreditation in Higher Education (CYQAA), for admission to postgraduate programmes taught in the English language, candidates should provide a certificate of their knowledge of English.
 - For postgraduate programmes candidates are required to have a certification for "Very Good Knowledge" of English at level B2-C1 of the Common European Framework of Reference for Languages (CEFR).
 - Common European Framework of Reference for Languages (CEFR) corresponds to the following specific reference frameworks for international examinations, according to the official pages of the organizations offering these examinations. Indicatively, a score of 5.5 – 6.5 corresponds to knowledge of level B2 (Lower), while score 8.5-9 is level C2 (Proficiency).
 - Due to some scores only remaining valid for two years, if you apply using a certificate gained over two years ago, you will need to retake the test.

- Interested candidates coming from third countries can also take the Password Test (Password Skills Test Plus), ensuring an overall score of at least 5.5, in order to be granted a permit to enter the Republic of Cyprus (Decision 91.387/2021 of the Council of Ministers of the Republic of Cyprus, which enters into force on 01.12.2022).
- 7. Other certificates and verifications that they will help the evaluation committee to assess your application, such as employment verifications, etc.
- 8. **FOR DOCTORAL APPLICATIONS:** A preliminary research proposal for a PhD place (if this is stated in the department's regulations).

Application Submission Confirmation

It is the applicant's responsibility to ensure that their application has been successfully submitted. Upon successful submission, the candidate will receive an automatic confirmation from the system that his/her application has been successfully submitted. For any additional information or clarification, please do not hesitate to contact the [Graduate School](#).

TUITION FEES

MASTER PROGRAMMES
<p>€5.125 per conventional Master's programme</p>
SELF-FUNDED MASTER PROGRAMMES
<ul style="list-style-type: none"> • €10.250 - Business Administration (MBA) • €8.000 - Natural Gas in Energy Transition • €10.000 - Business Economics (Technology, Innovation Management and Entrepreneurship – TIME MBE) • €7.500 - Human Resource Management • €5.125 - School Counselling and Guidance • €5.125 - Gender Studies
PhD PROGRAMMES
<p><u> Holders of Master's degrees </u></p> <p>Total fees €4.000</p>
<p><u> Non-holders of Master's degrees </u></p> <p>Total fees €6.500 (assuming that the student completes the requirements of his/her degree programme and obtains the PhD degree in 6 years/12 semesters).</p> <p>Each year of study, beyond the 6 years, with a maximum duration of 8 years (16 semesters) corresponds to tuition fees of €1.250 per year (€625 per semester). Maximum tuition fees for a PhD degree are €9.000.</p>

In addition to graduate tuition, a clinical practicum fee of €1.000 is charged in the **Applied Programme in School Psychology Master & PhD programme**, in order to cover expenses for clinical supervision services provided by Registered Professional Psychologists.

SCHOLARSHIPS

The University of Cyprus offers scholarships to Master degree and PhD students. These scholarships are awarded based on the academic performance and the socio-economic status of the student.

1. **Scholarships from the Academic Departments of the University of Cyprus**: The academic Departments of the University of Cyprus offer scholarships to their postgraduate students from their own income. For more information please, contact directly the Departments.
2. **Scholarships for Siblings or First Degree Relatives or Married Partners**: The University of Cyprus awards scholarships for partial coverage of fees to new and existing postgraduate students who are studying in a conventional Master's or PhD programme of the University of Cyprus and are siblings or first-degree relatives or couples. In order for the scholarships to be granted, the students must fall into the following categories and provide the necessary supporting documents and certificates that will be requested by the University of Cyprus.
 - **Siblings**: when two or more siblings (or other first-degree relatives) are simultaneously studying in a conventional Master's or PhD programme, a 20% scholarship is granted in the instalments of the semester tuition fees for each student.
 - **Couples**: in the event that married couples of students are simultaneously studying in a conventional Master's or PhD programme, a 20% scholarship is granted in the instalments of the semester tuition fees for each student.

Note: *Students in Self-Funded Programmes are excluded from the scholarships award.*
3. **Scholarships to students - holders of the EU Disability card**: The University of Cyprus awards partial tuition scholarship to new students with disabilities who hold the European Disability Card and are studying in a Master's or Doctoral degree programme, Conventional or Self-financed. The University of Cyprus grants a 20% scholarship on the semester's tuition fee instalments, with the exception of the tuition fee deposit paid by the student upon acceptance of the place. **Additional information.**

INTERNATIONAL STUDENTS - APPLICATION FOR A VISA

Entry permit visa of postgraduate students from non-EU countries

All students from non-EU countries require a visa to enter the Republic of Cyprus.

The [International Students and Staff Office](#) of the University of Cyprus provides guidance and support to all non-European students and staff regarding entry and residence permit procedures in the Republic of Cyprus.

Once the evaluation process of your application has been completed and the decision to offer you a place on a postgraduate programme has been made, you will be informed by the International Students and Staff Office about the documents required for the issuance of a visa.

Once all the required documents and payments have been received, the University of Cyprus, through the International Students and Staff Office, will submit the student's documents to the competent authority for examination of the visa application.

For the documents required for the issuance of visas, please consult the Office's website [here](#).

More information:

International Students and Staff Office

Tel.: +35722894050

Email: internationalsupport@ucy.ac.cy

Entry permit of postgraduate students from EU countries

EU citizens do not need a visa to enter Cyprus. Within 3 months (90 days), from their arrival in Cyprus, they will have to apply for a residence permit in Cyprus.

Information on the website of the International Students and Staff Office [here](#).

More information:

International Students and Staff Office

Tel.: +35722894050

Email: internationalsupport@ucy.ac.cy

HOUSING

Through the Housing Office, all students can find relevant information on the **services offered by the Housing Office** regarding student residences, applications for accommodation, private residences, student accommodation assistants, applications for summer accommodation, activities and events.

A Student Residence operates on the Campus and rooms are allocated based mainly on financial criteria. In addition, the Housing Office prepares a list of advertisements for apartments/homes for rent and for co-housing, which is updated on a weekly basis during the academic year.

Information on housing issues can be found on the **Housing Office** [website](#).

More information:

Housing Office

Tel: +357 22892166

Tel: +357 22894037

Email: housing@ucy.ac.cy

MASTER'S & PhD PROGRAMME PLACES BY DEPARTMENT

1. DEPARTMENT OF ARCHITECTURE

Ten (10) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places PhD Programmes: Ten (10)

PhD PROGRAMME	
Programme Title	PhD in Architecture
No. of places	Ten (10)
Description / Information	<p>The specialisations of the programme are in the following areas:</p> <ul style="list-style-type: none"> • Architectural History and Theory • Architectural Design and Theory • Digital Communication Media • Architectural Technology • Urban Design • Energy and Environmental Design
Language of Instruction	<ul style="list-style-type: none"> • Greek
Type of Programme	<ul style="list-style-type: none"> • In person/Conventional
Coordinator - Programme Director	Associate Professor, Aimilios Michael, Tel: 22892977, e-mail: michael.aimilios@ucy.ac.cy
Details of person(s) for information on the programme	<p>For further information, please contact the Secretary of the Department: Tel: 22 892980, Fax: 22 895056, e-mail: architecture@ucy.ac.cy, Departments' Website: https://www.ucy.ac.cy/arch/?lang=en</p>

2. DEPARTMENT OF BIOLOGICAL SCIENCES

Thirty (30) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: Twenty (20)

Total places PhD Programmes: Ten (10)

MASTER PROGRAMME	
Programme Title	MSc in Molecular and Cellular Life Sciences
No. of places	Twenty (20) places in both MSc Programmes
Description / Information	<p>The MSc in Molecular and Cellular Life Sciences entails theoretical coursework as well as a research dissertation, which can be laboratory-based or literature-based. Applicants who join this programme can choose between the two options until the end of the second semester of their studies.</p> <p>Students opting for a laboratory-based research dissertation will need to secure a laboratory position by identifying a faculty member that would be prepared to supervise them for the laboratory component of their research work.</p>
Language of Instruction	<ul style="list-style-type: none"> English
Type of Programme	<ul style="list-style-type: none"> In person/Conventional
Coordinator - Programme Director	Associate Professor, Vasilis Promponas, Email: promponas.vasileios@ucy.ac.cy , Tel.: 22892879
Details of person(s) for information on the programme	Anna Christou, Email: annac@ucy.ac.cy , Tel.: 22892894

MASTER PROGRAMME	
Programme Title	MSc in Biodiversity Conservation
No. of places	Twenty (20) places in both MSc Programmes

Description / Information	<p>The MSc in Biodiversity Conservation entails theoretical coursework as well as a research dissertation, which can be laboratory-based or literature-based. Applicants who join this programme can choose between the two options until the end of the second semester of their studies.</p> <p>Students opting for a laboratory-based research dissertation will need to secure a laboratory position by identifying a faculty member that would be prepared to supervise them for the laboratory component of their research work.</p>

3. DEPARTMENT OF BYZANTINE AND MODERN GREEK STUDIES

Twenty-three (23) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: Fifteen (15)

Total places PhD Programmes: Eight (8)

MASTER PROGRAMME	
Programme Title	MA in Modern Greek Studies
No. of places	Fifteen (15)
Description / Information	Potential candidates for the Master's level graduate programme must hold a university degree in a related academic field, from an accredited university in Cyprus or abroad, and with a grade of 7 and above (on a 1-10 scale). In addition to Modern Greek, they should have very good knowledge of at least one foreign language. For more information on the admission criteria and instructions for submitting an application, please consult the relevant section below.
Language of Instruction	<ul style="list-style-type: none"> • Greek
Type of Programme	<ul style="list-style-type: none"> • In person/Conventional

9. DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING

Eighty-three (83) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: 17

Total places PhD Programmes: 66

MASTER PROGRAMME	
Title of the programme	Electrical Engineering (MSc / MEng)
No. of places	Seven (7)
Description / Information	The main objective of the Master of Science in Electrical Engineering/Master of Engineering in Electrical Engineering programme is to educate and train in-depth engineers in various fields of electrical engineering, who will subsequently be able to solve advanced electrical engineering problems using software tools and state-of-the-art equipment. In this problem solving process, technological constraints and constraints inherent to the problem at hand, both in terms of hardware and software, are taken into account. Furthermore, the programme aims to introduce students to

	<p>the cutting-edge research and innovation currently taking place in the various areas of Electrical Engineering. The programme emphasizes mastery in the field of interest of each student as well as advanced knowledge of other subjects in related areas. It is tailored to meet the needs of each student with some certain general restrictions set by the Department. The course offerings provide the student with an opportunity to deepen his or her knowledge in a specific area of electrical engineering, as well as broaden his or her knowledge by also taking courses in a number of other areas of electrical engineering. Graduate study and research are offered in the areas of:</p> <ul style="list-style-type: none"> • Power and Renewables • Telecommunication Systems and Networks • Biomedical Engineering • Signal and Image Processing • Electromagnetics, Microwaves, Antennas, and Optics • Intelligent Systems and Control • Electronic Devices, Instrumentation, Sensors and Nanotechnology • Electronics

PhD PROGRAMME	
Title of the programme	Electrical Engineering
No. of places	Thirty-one (31)
Description / Information	<p>Electrical and Computer Engineering (ECE) is a key discipline, at the heart of the technology frontier. It deals with the design and analysis of electrical, magnetic and optical devices, and the processing, control, and transmission of information and energy. The tools used in electrical and computer engineering include electrical, electromagnetic and optical phenomena, systems theory, and computational hardware and software. The discipline can be divided in the fields of Electrical Engineering and Computer Engineering.</p> <p>Specifically, Computer Engineering is a broad field that covers many diverse areas of study such as computer networks, computational intelligence and robotics, computer hardware systems, embedded and real-time systems, computer software design, operating systems, algorithms, etc. Students and faculty in Computer Engineering also develop synergies with disciplines outside of engineering; for example, with medicine and the life sciences that can lead to education and research in biomedical engineering.</p> <p>The main objective of the PhD programme in Computer Engineering is to advance the existing knowledge in the various areas of Computer Engineering and enable students of exceptional</p>

	<p>ability to undertake advanced study and conduct original research. The programme focuses on technology issues for cutting-edge technologies. Students can conduct research in an area of concentration that is related to one, or more, areas of Computer Engineering offered at the department such as:</p> <ul style="list-style-type: none"> · Computer Networks · Biomedical Engineering · Computational Intelligence and Robotics · Embedded Systems and Computing Hardware <p>The programme prepares graduates with in-depth knowledge and research competence of the highest caliber to fill positions in research organizations, universities, governmental organizations and the industry. The programme consists of advanced studies and research leading to new/original knowledge and significant contribution beyond the current state-of-the-art in the chosen research area.</p> <p>The successful completion of the candidates' research is demonstrated via their doctoral dissertations, which must showcase both the ability to perform independent research as well as the candidates' competence towards the production of new knowledge and novel results that are of the highest quality and academic standards and exhibits academic excellence. A Ph.D. dissertation in the field of Computer Engineering is expected to present original research of advanced level for a significant problem in the field, and should provide the basis for publishable contributions to the research literature in the field.</p>

10. DEPARTMENT OF ENGLISH STUDIES

Fifteen (15) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: Ten (10)

Total places PhD Programmes: Five (5)

MASTER PROGRAMME	
Programme Title	MA in English Studies
No. of places	Ten (10)
Description / Information	<p>This Master's programme is designed for students who wish to pursue advanced study and research in English Studies. Drawing from the fields of Literary and Cultural Studies, Translation Studies, and the study of the English Language, this interdisciplinary, inter-generic programme balances theoretical, cultural and practical concerns. It has the following main objectives:</p> <ul style="list-style-type: none"> • To provide graduate students with a holistic understanding of hermeneutic and pedagogical issues of interpretation and transmission. • To offer an in-depth focus on theoretically and historically informed perspectives on literature. • To develop a particular focus on the role of the interlingual and intercultural transfer of literary texts through translation and adaptation. • To provide a solid background in the philosophy and practice of language. <p>The Programme is divided into two components: The taught component covers the main areas of English Studies and familiarizes students with research methodology; the thesis component gives students the opportunity to undertake research in a specialised area of interest. Offered courses will be drawn from a list of broader rubrics that represent the philosophy and objectives of the Programme.</p>

PhD PROGRAMME	
Programme Title	English Literature and Comparative Cultural Studies
No. of places	Five (5)
Description / Information	The doctoral programme in English Literature and Comparative Cultural Studies is designed for students who wish to undertake research in Anglophone or comparative literature, with particular emphasis on theoretical, cross-cultural and interdisciplinary perspectives. Students may explore cross-cultural dimensions within English Studies, Anglophone literature in relation to literatures in other languages, intergeneric approaches to literature, or recent developments in literary and cultural analysis, drawing from disciplines such as psychoanalysis, anthropology, sociology, political theory, history, philosophy, film theory, the visual arts, gender and postcolonial studies.

PhD PROGRAMME	
Programme Title	PhD in Digital Heritage and Landscape Archaeology
No. of places	Three (3)
Description / Information	<p>The Ph.D. programme <i>Digital Heritage and Landscape Archaeology</i> of the University of Cyprus is a unique postgraduate programme that offers a concrete interdisciplinary academic course platform dealing with the application of spatial technologies and Geoinformatics in the wider domain of Digital Humanities. The programme will act as an interface between New Technologies and the Humanities, exposing students to the latest spatial technological developments, providing hands-on training to different instrumentation and software, promoting a critical perspective of their application in terms of addressing archaeological- and historical- oriented questions and opening a dialogue between different disciplines.</p> <p>The particular knowledge and skills will equip students to deal successfully with the existing challenging conditions of the competitive job market in the humanities and provide them with a solid base of knowledge to continue their research at an even more</p>

advanced level. Students will participate to international research projects of the Digital Humanities Geoinformatics Lab, they will get connected with a network of international researchers and academics, they shall obtain experience with geophysical instrumentation and advanced GIS spatial analysis methods and they will become part of the new generation of archaeologists who will be capable to deal with new technologies.

Intended learning outcomes

Through the specific graduate programme, students will be able to:

- Comprehend the relation between environment, climate, and anthropogenic activities of the past with an emphasis on the settlement patterns and the exploitation of environmental resources.
- Obtain state-of-the-art skills that can be used in both field campaigns and laboratory analysis of surface survey and excavation results.
- Understand how the different spatial analysis tools operate to address questions related to the habitation patterns and the intra- and inter-spatial distribution of finds.
- Acquire the knowledge of the creation of maps (distribution of finds, geophysical measurements, geological and topographic maps, environmental maps, etc.) and comprehend the different spatial statistic algorithms to analyze them.
- Familiarize themselves with the actual research questions and take a critical stand on the statistical and spatial statistical results.
- Obtain a practical hands-on training of software (GIS, network analysis, statistical analysis, mapping, etc.) and instrumentation/hardware (geophysical instruments, drones, cameras, GPS, etc.) that will make them competitive in their future profession (academia, cultural resources management, practical archaeology, etc.) and boost their career opportunities.

INTERNATIONAL RESEARCH ENVIRONMENT

Our **MSc, PhD, and Postdoctoral programme's** bring together students from diverse academic backgrounds and nationalities, including **Cyprus, Greece, Italy, the Netherlands, India, France, the USA, and Egypt**. This international environment fosters an **ideal research niche** where students actively engage in research projects, gaining **hands-on experience and valuable networking opportunities**. Explore some student testimonials

here: <https://www.ucy.ac.cy/dhla/testimonials/>

PROGRAMME HIGHLIGHTS and HANDS-ON TRAINING:

- No prior experience with GIS, spatial analysis, or geophysical tools is required.
- Students gain **step-by-step training** in **GIS, spatial analysis, Space Syntax, mapping, geophysical equipment, GPS**, and more.

	<p>➤ By the MSc thesis stage, students will be fully equipped to apply these tools in their research.</p> <p>FLEXIBLE RESEARCH SCOPE:</p> <ul style="list-style-type: none"> ☐ The programme is not limited to Cyprus or the European Union. ☐ Research can focus on any geographic region, provided data is accessible. ☐ Topics can include Cultural Resource Management (CRM), locational studies, predictive modeling, and risk assessment. ☐ Research can be conducted at various scales, from intra-site settlement organization to landscape-level topographical reconstruction. <p>COURSE TOPICS & METHODOLOGIES:</p> <p>The programme covers a wide range of Geoinformatics and geophysical methods, including:</p> <ul style="list-style-type: none"> • GIS I & II (spatial analysis, predictive modeling, risk assessment) • 3D GIS & Deep Mapping • Space Syntax & Surface Survey Data Mapping • Satellite Imagery Processing & Big Data Analytics • Geophysical Prospection & Remote Sensing Applications • Coastal Change & Erosional Modeling <p>SCHOLARSHIP & FUNDING:</p> <ul style="list-style-type: none"> ▪ Full tuition scholarships have been awarded to a large number of students. ▪ Scholarship availability depends on application volume and academic merit. <p>This programme is ideal for students interested in applying digital tools and geotechnologies to archaeology.</p> <p>The candidates for the PhD programme should be graduates of a Master's programme in Archaeology, History, Classics, Anthropology or other related fields of research (History of Art, Architecture, Geography, Geology, Topography, Environmental Sciences, Biology, Physics, Chemistry, Computer Science, Engineering) from recognized universities.</p> <p>Except the above supporting documents that candidates need to submit in the online application system of the University of Cyprus, they shall need to submit a preliminary research proposal (5-10 pages including references) that will explain the research topic of their PhD.</p> <p>Candidates who meet the necessary requirements will be called for an interview.</p>

PhD PROGRAMME	
Title of the programme	Archaeology of the Mediterranean from Prehistory to the Byzantine era
No. of places	Five (5)
Description / Information	<p>The programme aims to explore the archaeology of Cyprus from Prehistory and the first appearance of man on the island up to the Roman times. The supervision of doctoral theses is undertaken by the academic staff of the department, in particular those specialising in Prehistoric, Classical and Byzantine archaeology. Research guidance of doctoral students is provided by archaeologists, academics and researchers from universities and research centres abroad, who participate equally in the thesis monitoring committees. The topics of the theses cover a wide range, from the study and publication of archaeological material from many different sites and regions, of different types and categories and made of different materials, to the research of ancient technology, trade and economy, the study of archival material in relation to excavations and developments in archaeological science and methodology, the application of new technologies in the recording and investigation of archaeological material, theoretical approaches, etc. An important aspect of the programme is that it attempts to place the archaeology of Cyprus in its Mediterranean context, and particularly, though not exclusively, in the wider world of the Eastern Mediterranean, and to examine the technological, social, political and economic interconnections of archaeological material from these regions.</p>

15. DEPARTMENT OF SOCIAL AND POLITICAL SCIENCES

Twelve (12) places for the postgraduate programme leading to a **Master's or a PhD degree** are distributed as follows:

Total places Master Programmes: Eight (8)

Total places PhD Programmes: Four (4)

MASTER PROGRAMME	
Programme Title	MA in Political Science (<i>specialisation in International Relations</i>)
No. of places	Three (3)
Description / Information	Admission Requirements:(1) Candidates for the MA programme should be graduates of an accredited university department, holding degree in Political Sciences or in relevant fields. (2) Graduates of Greek universities or of the University of Cyprus should normally hold at least 7.0 or above. The equivalent grade is required from graduates of other universities. (3) A good knowledge of the English language is required. The knowledge of an additional foreign language will be counted as an extra qualification. https://www.ucy.ac.cy/sap/master-program-in-political-science-direction-in-international-relations/?lang=en

MASTER PROGRAMME	
Programme Title	MA in Peace Conflict and Democracy
No. of places	Five (5)
Description / Information	<p>Admission Requirements</p> <p>Academic Requirements The programme will consider applicants with an academic background/degree in Social Sciences, Arts or Humanities or any other associated field. International graduates should normally have the equivalent grade level (e.g. UK university graduates should normally have a second-class honors degree (55+)). Graduates of the University of Cyprus or of Greek universities should normally hold a grade level of at least 7 or above. Applicants with extensive professional experience (more than 5 years) in the fields of peace and conflict or democratization will be admitted if they already hold a postgraduate degree or may be considered if they have received a grade level of at least 6.5 from an internationally recognized university.</p> <p>Language Requirements When applicants' previous studies have not been conducted in English, they are expected to show an adequate level of proficiency in English. Applicants should have an IELTS* score of 6.5 (with at least 5.5 in each section) with the test taken not more than two years before the submission of the application. Equivalent recent qualifications (TOEFL, Cambridge etc.) will also be considered.</p> <p>Supporting Documents: Motivation Letter <ul style="list-style-type: none"> 2 Letters of Reference https://www.ucy.ac.cy/sap/ma-peace-conflict-democracy/?lang=en</p> <p><u>SCHOLARSHIPS FOR THE MASTER PROGRAMME IN PEACE, CONFLICT & DEMOCRACY</u></p> <p>The Department of Social and Political Sciences offers one external (1) departmental scholarship covering tuition. The selection criteria are: (1)</p>

	<p>academic performance, (2) further academic qualifications, (3) references, (4) publications, etc.</p> <p>Applications for a scholarship can only be submitted through the online application system of the University of Cyprus at https://applications.ucy.ac.cy/postgraduate_appl/MNG_USER_en.login_frm Step 11 of the application, select the scholarship you wish to apply for. The Post-graduate Studies Committee of the Department evaluates the applications and submits its proposal to the Council of the Department for decision late in Spring term.</p>

16.INTERDEPARTMENTAL PROGRAMME IN ENERGY TECHNOLOGIES AND SUSTAINABLE DESIGN – FACULTY OF ENGINEERING (DEPARTMENT OF ARCHITECTURE, DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING, DEPARTMENT OF MECHANICAL AND MANUFACTURING ENGINEERING AND DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING)

Thirty - four (34) places for the postgraduate programme in “Energy Technologies and Sustainable Design” of the Faculty of Engineering leading to a **Master's degree (MSc & MEng)** are distributed as follows:

- Ten (10) places to the Department of Architecture
- Nine (9) places to the Department of Civil and Environmental Engineering
- Six (6) places to the Department of Mechanical and Manufacturing Engineering
- Nine (9) places to the Department of Electrical and Computer Engineering

MASTER PROGRAMME	
Programme Title	Interdepartmental Postgraduate Programme “Energy Technologies and Sustainable Design” of the Faculty of Engineering
No. of places	Ten (10) places to the Department of Architecture Nine (9) places to the Department of Civil and Environmental Engineering Six (6) places to the Department of Mechanical and Manufacturing Engineering Nine (9) places to the Department of Electrical and Computer Engineering
Description / Information	The Interdepartmental Postgraduate Programme «Energy Technologies and Sustainable Design» (IPP-ETSD) offers specialisation in the discipline of Energy Technologies within the frame of Sustainable Design. The programme is offered by the four Departments of the Faculty of Engineering and aims in providing an integrated, interdisciplinary, scientific training and understanding in a wide range of energy topics, through the framework of sustainable design. Programme Website: https://etsd.ucy.ac.cy/en/

17.INTERDEPARTMENTAL PROGRAMME IN BYZANTINE STUDIES AND LATIN EAST – DEPARTMENT OF BYZANTINE AND MODERN GREEK STUDIES AND DEPARTMENT OF HISTORY AND ARCHAEOLOGY

Six (6) places for the postgraduate programme in “Byzantine Studies and Latin East” leading to a PhD degree are distributed as follows:

Total places PhD Programmes: Six (6)

PhD PROGRAMME	
Programme Title	PhD in Byzantine Studies and the Latin East
No. of places	Six (6)
Description / Information	<p>The goal of the programme is to promote interdisciplinary approaches in the various fields of Byzantine Studies and the Medieval Eastern Mediterranean. More specifically, the programme aims at a multilevel and multifaceted study of Byzantine culture that combines the theoretical and practical methodological tools of Philology, History, History of Art and Archaeology. The programme also provides the opportunity to study the Latin East and Greeks under Latin Rule through a combination of methods and themes.</p> <p>The programme is enriched by visits to the archaeological sites, museums, monuments and monastic libraries of Cyprus. At the same time, through the lectures organised within the framework of the Colloquium of Byzantine and Medieval Studies, the students are given the opportunity to become acquainted with the work of Cypriot</p>

	and foreign scholars and to present their own research before an expert audience. Furthermore, the students have the possibility to participate in research projects coordinated by the faculty members of the programme.

18. JOINT DEGREE AND INTERDEPARTMENTAL PROGRAMME IN DESIGN FOR SOCIAL INNOVATION – DEPARTMENT OF ARCHITECTURE, DEPARTMENT OF BUSINESS AND PUBLIC ADMINISTRATION, AND DEPARTMENT OF MULTIMEDIA AND GRAPHIC ARTS OF CYPRUS UNIVERSITY OF TECHNOLOGY (CUT)

Ten (10) places for the postgraduate programme in “**Design for Social Innovation**” leading to a **Master's degree** are distributed as follows:

MASTER PROGRAMME	
Programme Title	MA in Design for Social Innovation
No. of places	Ten (10)
Description / Information	<p>The new MA Design for Social Innovation is a unique programme that combines design thinking with social entrepreneurship to empower students to develop innovative solutions to some of the world's most pressing challenges. The MA in Design for Social Innovation brings together experts from design, architecture, social innovation, and entrepreneurship and a global cohort of learners.</p> <p>MA in Design for Social Innovation</p> <ul style="list-style-type: none"> • is offered through the collaboration of two universities (the University of Cyprus and the Cyprus University of Technology) and three different Departments (Department of Architecture, Department of Business and Public Administration and Department of Multimedia and Graphic Arts) • is designed to run online (combining both synchronous and asynchronous learning) • is available for full and part time study • places an emphasis on practice-based teaching

	<p>WHO CAN APPLY</p> <p>The MA in Design for Social Innovation programme is designed for students with a Bachelor level of education, who have a strong interest in developing high-level competences rooted in social science and design theory and practice to build, improve and evolve skills and capacities necessary for social innovation action. The departments involved share an ethos of interdisciplinarity in design and innovation and strive to build links between academia and practice bringing to the forefront impactful and evidence-based theoretical and methodological knowledge. The course suits well both recent graduates and professionals. More information at https://dsi.education/</p> <p>ENTRY REQUIREMENTS</p> <p>Applicants must have a University degree of a relevant background (such as Design, Management, Architecture, Social Sciences) awarded by an accredited institution in the country where it operates, or a degree evaluated as equivalent to a University degree by the Cyprus Council for the Recognition of Higher Education Qualifications (KY.S.A.T.S). Individuals who will be awarded a University degree or Graduation certificate fulfilling the necessary criteria by the end of the week that precedes registration week, are also eligible to submit an application.</p> <ul style="list-style-type: none"> • Language English • E-Learning
