

Light it up Blue!

The University of Cyprus has actively participated for the third consequent year at the Light it Up Blue campaign, a unique global initiative that kicks-off Autism Awareness Day and helps raise awareness about autism. In honour of this historic day, many iconic landmarks, hotels, sporting venues, concert halls, museums, bridges and retail stores are among the thousands of buildings lit blue to raise autism awareness.

Our institution lighted blue the Historic Clock located at its old campus and informed the university community, its alumni and the society in general on different aspects of autism, in its effort to create awareness and enhance diversity.
