

Turkish Language for Medical Staff

Level A1: Basic User (50 hours)

This *three month course* is offered by the Language Centre, and is structured and especially designed to cover the needs of people working in the *medical profession* who need to communicate on a daily basis with Turkish-Cypriot patients. It is designed to develop mainly *listening, and speaking skills* and focuses on the acquisition of communicative competence.

Upon successful completion of the course, participants will be able to communicate information for their patients and be able to understand their needs.

The course emphasizes the practical and day-to-day use of the target language in relation to everyday life. Using a communicative methodology, the course offers role-plays, group discussions and listening comprehension.

Content of the course will specifically relate to obtaining patient information for registration purposes, making appointments, identifying symptoms of medical problems/ diseases, and explaining medical treatments and any further assistance needed.

Writing will be focused on obtaining a medical history of the patient as well as writing instructions/comments on behalf of the professionals.

Who should participate? Employees of your organization (Doctors/ Medical Officers/

Administrative Officers/ Nurses/ Assisting staff) who wish to learn Turkish to enhance their knowledge of languages, or individuals who due to their position within an organization need to learn Turkish for communicative purposes with the patients.

Tutors: All instructors in the Adult Education program have Masters level qualifications in Turkish and specialist training in the teaching of Turkish as a second/foreign language. They are likewise experienced University level language teachers.

Groups: Each group will have a minimum of 10 participants and a maximum of 15 participants. *The course is offered twice a week with 2 hours afternoon sessions for three months.*
