

Turkish Language for Adults *Level A2: Basic User (120 hours)*

The *Second level of Turkish* offered by the Language Centre is structured according to the *Common European Framework of Reference for Languages*. It's designed for participants who already have taken at least a 120 hour course in Turkish and *have completed the A1 level*. It is structured to develop listening, speaking, reading and writing skills and focuses on the acquisition of communicative competence. Upon successful completion of the course, students will be well on their way to functioning at the B1 level of the Common European Framework for language learning.

The course emphasizes the practical and day-to-day use of the target language in relation to everyday life in the target culture. Using a communicative methodology, the course offers role-plays, group discussions and listening as well as written comprehension exercises.

The specific program is using books and articles, as well as video, audio and web-based resources to familiarize participants with aspects of daily life, such as introducing themselves and their

families, going to the bank, going for shopping, or to the restaurant, ordering food and drink and visiting the confectionary. Participants will also be familiar with how to answer questions about their work, free time and hobbies, as well as using any transportation and asking important information for travelling. By the end of the course, participants will be able to describe places, make appointments and write dialogues about

their holidays and their daily lives. They will also be able to write short letters, memos and understand simple new announcements in magazines and newspapers.
