- Municipality of Gotene, Sweden
Methamphetamine – a comparative study of the European approach to the prevention and treatment of meth as set against the UK’s, together with the development of best practice

University of Wolverhampton, UK
LOOKING FOR PARTNERS

- To explore the capacity and willingness of public and third sector organisations to respond to the concerns of disadvantaged communities and to help reduce the incidence of violence
- Target audiences are policy makers, local authorities, social workers
- Centre of Community Research, Birmigham, UK
“Cyber Violence, New Technologies and Social Networking Tools – a study of electronic based social media violence on women, children and young people” aims to undertake a study at an EU level of the extent of cyber violence experienced by women, children and young people through new electronic media such as social networking web-sites, such as Facebook, etc.

The project will assist in developing effective policy and strategic responses that can be used to reduce different types of violence such as bullying, domestic violence, rape, sexual harassment, sexual exploitation, etc.

University of Wolverhampton, UK
Thank you
