

Storytelling as *Pharmakon* in Premodernity and Beyond: Training the New Generation of Researchers in Health Humanities (StoryPharm)

Advertisement of Positions

Third Call for Applications

Are you getting or have already received an MA in Ancient or Medieval History, Art History, Byzantine Studies, Classics, Cultural Heritage Studies, Medieval Studies, Philology (Arabic, English, French, German, Greek, Italian, or Latin), Religious Studies? Are you interested in participating in an international, interdisciplinary, and intersectoral programme of doctoral training recruiting a group of highly-competent fellows?

The StoryPharm consortium publishes now a third call for 3 PhD fellowships within the training programme “Storytelling as *Pharmakon* in Premodernity and Beyond: Training the New Generation of Researchers in Health Humanities”. The fellowships are funded by the European Union’s Horizon Europe research and innovation programme under the Marie Skłodowska-Curie Action – Doctoral Networks, Grant Agreement 101169114.

All recruited doctoral fellows will become highly skilled cultural historians specialising in premodern intellectual and healthcare worlds. At the same time, they will acquire transferable skills allowing them to use, develop, and deploy cutting-edge approaches to storytelling and its ethical ramifications for scientific, professional, business, healthcare, and social purposes. After the offered doctoral training, the fellows will be ideally positioned to (1) achieve ground-breaking research results; (2) meet current trends and needs in the job market; (3) work towards establishing a human-centred medical system; and (4) create better and more resilient societies.

StoryPharm welcomes highly-motivated applicants.

The call is open to applicants of any age and nationality who meet the following requirements at the recruitment date:

- Prior to the starting date of the PhD programme they must hold or be due to hold a Master’s Degree in relevant fields mentioned above.
- Must not already hold a doctoral title.
- Must not have resided or carried out their main activity (work, studies, etc.) in the country of the recruiting organisation for more than 12 months in the 3 years immediately before the

recruitment date (mobility Rule). Any time spent as part of a procedure for obtaining refugee status under the Geneva Convention (1951 Refugee Convention and the 1967 Protocol), compulsory national service and/or short stays such as holidays do not count towards the total.

Additional requirements can apply for specific positions. For further information, please consult the detailed information for each position.

Applications for the third round will be accepted from **25/02/2025** until **31/03/2025** at **14:00** (Central European Time).

If any of the above prerequisites is not satisfied, the StoryPharm consortium reserves the right to exclude applicants from the selection procedure at any time, even after the selection procedure has taken place.

Application Procedures

Applications must be submitted electronically to the email address: cemar@ucy.ac.cy.

The following documents must be provided:

- Personal statement (max 2 pages) detailing the applicant's motivations and goals within the StoryPharm programme.
- CV (max 2 pages) with emphasis on prior academic achievements.
- Research statement (max 2 pages, 1,000 words) detailing how the applicant will approach the research project and how the StoryPharm training goals fit into the applicant's career plans. Please consider the research questions included in each position's description.
- Copy of Bachelor's and Master's Degree certificates and transcript of records.
- Copy of Master's Thesis.
- A reference letter by the MA supervisor and one other academic reference.
- Copy of an ID document valid at the time of the interview.

All application documents **must be drafted** in English. For **certificates and other official documents** official translations in English are preferable. We, however, accept documents in the following languages: Danish, Dutch, English, French, German, Greek, Italian, Norwegian, Portuguese, Spanish, and Swedish.

Applications must be submitted by the call deadline.

The applications must be complete in all their parts and must include all required material in PDF format without any protection that prevents printing.

Evaluation

A specific Evaluation Committee will be established to assess each topic's applicants. Each Committee will be composed of the main supervisors, an external member from the Supervisory Board, and possibly other faculty members of the recruiting university.

The evaluation process will include two stages.

1st Stage: Application Assessment

Application materials will be assessed based on the criteria specified in Table 2.

The score will be calculated on a scale of 0 to 100 points. Candidates with a score of at least 60 over 100 will pass to the second step and will be invited to an interview. We expect to notify shortlisted candidates in by April 2025.

Table 2: Evaluation Criteria for the Preliminary Selection

Criteria	Percentage
Criterion 1: Excellence of the applicant's CV, skills and track record (see Application Procedures), fulfilment of the relevant requirements related to the position applied for	80%
Criterion 2: Potential impact on the applicant's career and motivations to participate in the StoryPharm training programme	20%
Global score	100% (threshold 60%)

2nd Stage: Interview

Individual interviews will have the purpose of gaining a better sense of the applicants' academic background and their approach to the proposed PhD research project as well as the vision of their role within the network and of their future career. If a candidate has applied for more than one fellowship, the interview will test the fulfilment of the requirements for all of them.

The interviews will last approximately 30 minutes. Candidates will be interviewed on-line via Zoom or Teams.

The Evaluation Committee will evaluate the interviewees based on the criteria specified in the table below. It will produce an evaluation summary report for each applicant, with scores and detailed motivations.

All interviews will be conducted in English.

Table 3: Evaluation criteria for the interview

Criteria	Percentage
Criterion 1: Excellence of the applicant's presentation: Argumentation, communication, and evidence of knowledge of the ancient/medieval/modern languages when relevant	35%
Criterion 2: Excellence of the research statement, originality, understanding of the different facets of research demonstrated during discussion	65%
Global score	100%

The Evaluation Committee will produce a ranking list for each position.

Ranking List

All applicants invited to the interview will be informed of the outcome of the selection process with an Evaluation Summary Report.

Applicants with Disabilities or Specific Learning Difficulties

StoryPharm will take specific measures for applicants with disabilities (e.g. blind or deaf applicants or those suffering from any other relevant disability) or with specific learning difficulties (e.g. applicants diagnosed with dyslexia, dysgraphia, dyscalculia or dysorthography) to guarantee equal treatment.

Admission to the PhD Programmes

Successful applicants are admitted to their selected PhD programme following the order of the ranking list. The selected applicants must confirm by email their acceptance of the position within 10 days.

Applicants who fail to meet this deadline will be replaced by the next applicant on the ranking list, who will be informed by email and must enroll within 10 days following the same procedure.

If no other applicant is available in the ranking list for the position, StoryPharm may decide to assign the position to a qualified applicant for a different PhD position or launch an extra call for applications for the vacant position.

PhD Fellows' Rights, Obligations and Incompatibilities

It is not possible to be simultaneously enrolled in more than one study programme leading to the awarding of a degree (e.g. Bachelor, Masters, Postgraduate Specialisation, short/executive Masters or PhD).

In the case of enrolment in the StoryPharm PhD programme successful applicants will be required to suspend or, if not possible, discontinue any enrolment in their other degree programme before the commencement of the PhD programme in order not to be excluded.

Confidentiality

Personal data will be collected, used and processed in accordance with General Data Protection Regulation 2016/679 (GDPR).

StoryPharm commits to using personal information for the purposes of the selection process alone.

The participation in the selection process implies the applicant's consent to the collection, use and process of their personal data by the StoryPharm consortium.

For more information visit our website <https://www.ucy.ac.cy/storypharm/> and for any questions, contact the StoryPharm Scientific Project Manager, Dr Andria Androu andreou.andria@ucy.ac.cy

Third Call for Individual Applications

Fellow 1

Project Topic: “Mani as a Healer and Physician: Redefining Manichaean Origins in the Third Century CE”

Recruiting Organisation: Cardiff University (CARDIFF UNI)

We are offering a 3-year PhD position with a generous research allowance in an international, multi-partner EU project. This subproject will examine the close relationships between religion, health, prophecy and imperial authority in Late Antiquity. It will evaluate the links between these areas via a case study of the history and theology of the Manichaean community, with a specific focus on the historiographic and biographical sources for the life of Mani, the putative founder of Manichaeism. The subproject will look to contextualise Mani’s (216–c. 274 CE) persona as a healer associated with the court of Sasanian Persia under the rulership of Shapur I (d. 270 CE). It will investigate late antique Manichaeans’ concerns with health, well-being, and illness in relation to the spread of Manichaeism across West Asia and the Mediterranean, with a specific focus on Manichaean communities in the Roman Empire (esp. Egypt) and Sasanian Persia. The subproject will also evaluate the importance of Mani’s role and identity as healer in the act of securing the patronage of Late Antiquity’s imperial elites. The project aims to locate the emergence of the Manichaean religion in the religious and cultural concerns of third and fourth centuries CE where healing was linked to prophecy, religious knowledge, philosophical inquiry and sectarian competition. It will consider these issues alongside the development of legendary narratives (hagiographies) about Mani in relation to his persona as a healer, teacher and prophet.

The successful candidate will be employed at Cardiff University and enrolled in the School of History, Archaeology and Religion. The training includes a three-month academic secondment at the University of Cyprus and a one-month non-academic secondment at the Bamberg State Library. At Cardiff the PhD candidate will work under the supervision of Nicholas Baker-Brian and Eve MacDonald while Demetrios Michaelides will act as a supervisor at the University of Cyprus.

Objectives

Fellow 1 will aim at achieving the following results: (1) explain how the promotion of Mani's identity as a healer led to the extension of the new religion; (2) show how and why early Manichaean literature displays a pronounced concern with health and illness; (3) trace the origins of this concern; (4) provide a detailed understanding of the historical contexts for the emergence of Mani's teachings and the subsequent anxieties of 3rd-c. Manichaean communities in the Sasanian, Palmyrene, and Roman Empires.

Specific Requirements

A Master's Degree in one of the following areas is required: Classics, History, Late Antique and Byzantine Studies, and Medieval Studies.

The University wishes our staff to reflect the diversity of society and thus welcomes applications from all qualified candidates regardless of personal background.

Main Training Activities Specific to the Project

- Induction Week (University of Cyprus; UCY)
- Training in Critical Discourse Analysis (Lund University)
- Training in Narrative and in Literary Criticism (University of Salerno)
- Training in Intersectionality, Sexuality, and Gender (UCY)
- Spring School (University of Bamberg)
- Training in Obtaining Funding in Project Management (online)
- Training in Entrepreneurship (online)
- Training in Publishing Industry (Bamberg State Library)

Expectations

The PhD candidate will fulfil the requirements of the School of History, Archaeology and Religion's PhD programme in Ancient History

(<https://www.cardiff.ac.uk/study/postgraduate/research/programmes/programme/ancient-history>),

lead their research under the guidance of the supervisors and present their work at international conferences, in accordance with the consortium's communication and dissemination plan.

Furthermore, they will cooperate with other fellow PhD students to fulfill the StoryPharm's training and other objectives. Participation in StoryPharm's training and other activities is compulsory.

Salary

The successful candidate will be employed full-time. There is a salary range from £42,048 to £51,012. Salary is provided as a range and estimate, with actual salary being determined based on eligible allowances (living, mobility, family), exchange rates, and pension options, which are based on each doctoral researcher's individual circumstances.

The Application

The application package should contain a short document (max 2 pages) describing how candidates would approach the research. This is a crucial part of the evaluation as it is meant to reflect writing ability, creativity and grasp of theory and research. It is therefore crucial that the best effort is made toward making the document reflective of candidates' true abilities.

When composing the text regarding the project, candidates may wish to consider:

- How did the religious culture(s) of the time influence Mani's ideas – especially about the soul and the body?
- What were the prevailing ideas about health and illness in Late Antiquity?
- How might ideas about health and illness have affected the theological beliefs of Jews, Christians, Zoroastrians and Manichaeans?
