Subject: RE: OFFER SUBMISSION TENDER No. BIB 042/16 for the renewal of the subscriptions of Reaxys and Embase online databases

Dear Marianna,

Historically, we have seen that Elsevier titles annual price increases range between 5% and 6%.

As you may have noticed from our original communications a few months ago, Elsevier had a 6% price increase for your 2017 renewals of the Embase and Reaxys databases, subsequently lowered to 3% in light also of your CALC orders, and further extended to 2018 and 2019 renewals of these two databases, in the event of a 3-year commitment by UCY.

In spite of our asking, Elsevier staff themselves are not at liberty to comment on future price increases set by the company, as these are not known in advance.

However, it is safe to assume that if Elsevier's best offer for a three-yr contract is not accepted at the present time, the way is left open for higher prices for the 2018 & 2019 renewals.

We will await the University's final decision whatever that may be.

Thank you!

Kind regards,

Maria

Maria Paradise

Dear Maria,

Thank you for your offer.

Would it be possible to inform us what the renewal price would be, for both databases, for the following two years, if we decide not to accept the three year contract and renew only for the current year?

Thank you.

Kind regards,
Marianna
