

The Department of Turkish and Middle Eastern Studies occasionally needs to employ people with the status of Special Scientist, mainly in order to cover emergency needs in teaching staff, for teaching undergraduate courses. Fall Semester classes start in September and Spring Semester classes start in January each year. Applicants for temporary employment as Special Scientists may send their CV to the email address: andreou.marina@ucy.ac.cy. Those interested may not necessarily be citizens of the Republic of Cyprus. Any previous applications are valid and need not be resubmitted.
